

Goodnight Mister Moon

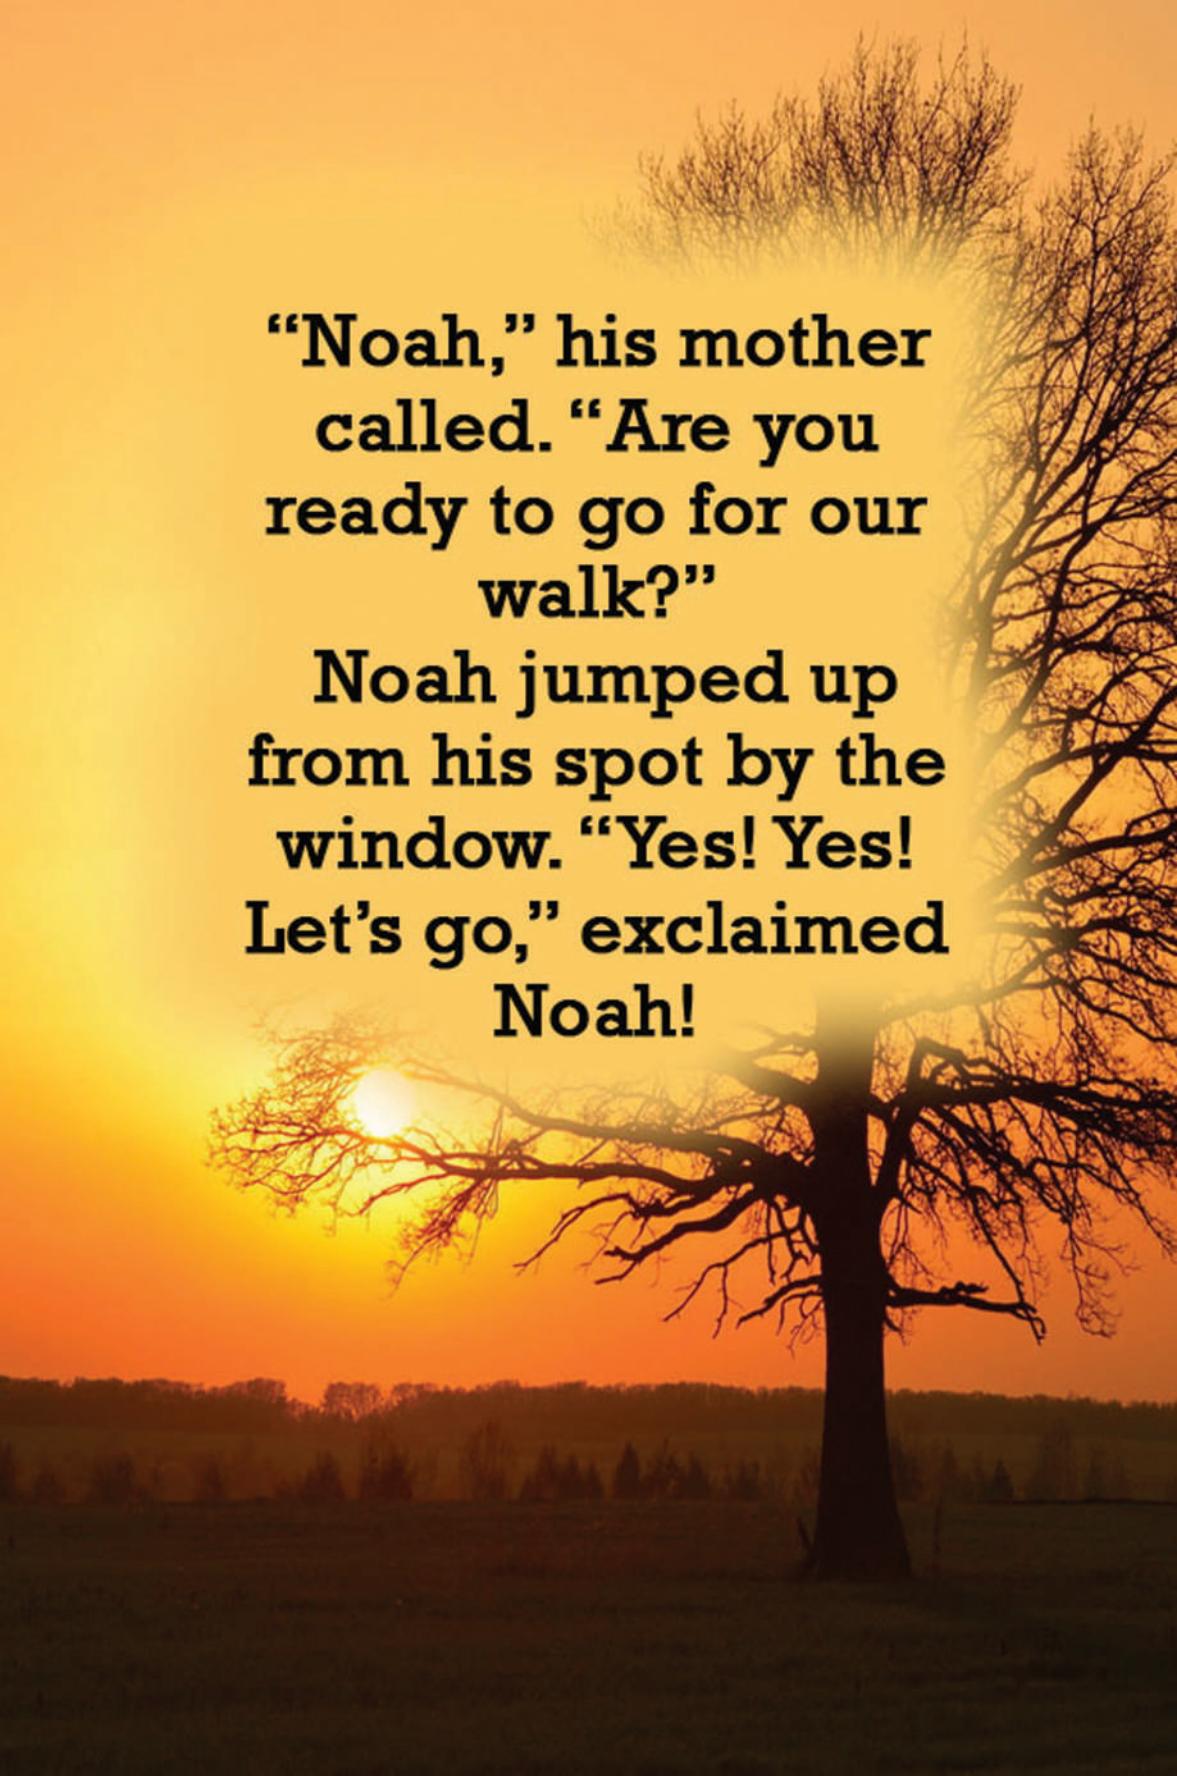

Goodnight Mister Moon

A photograph of a sunset over a field. The sky is filled with warm colors, transitioning from yellow at the top to orange and then red near the horizon. A single, leafless tree stands in the foreground on the right side, its dark silhouette contrasting with the bright sky. The horizon shows a line of trees and possibly a body of water.

**The sun was setting
in the sky. Noah
watched as the sky
was painted with
beautiful pinks,
oranges, purples
and blue. Noah was
just four years old,
but watching the
sunset was one of
his favorite things.**

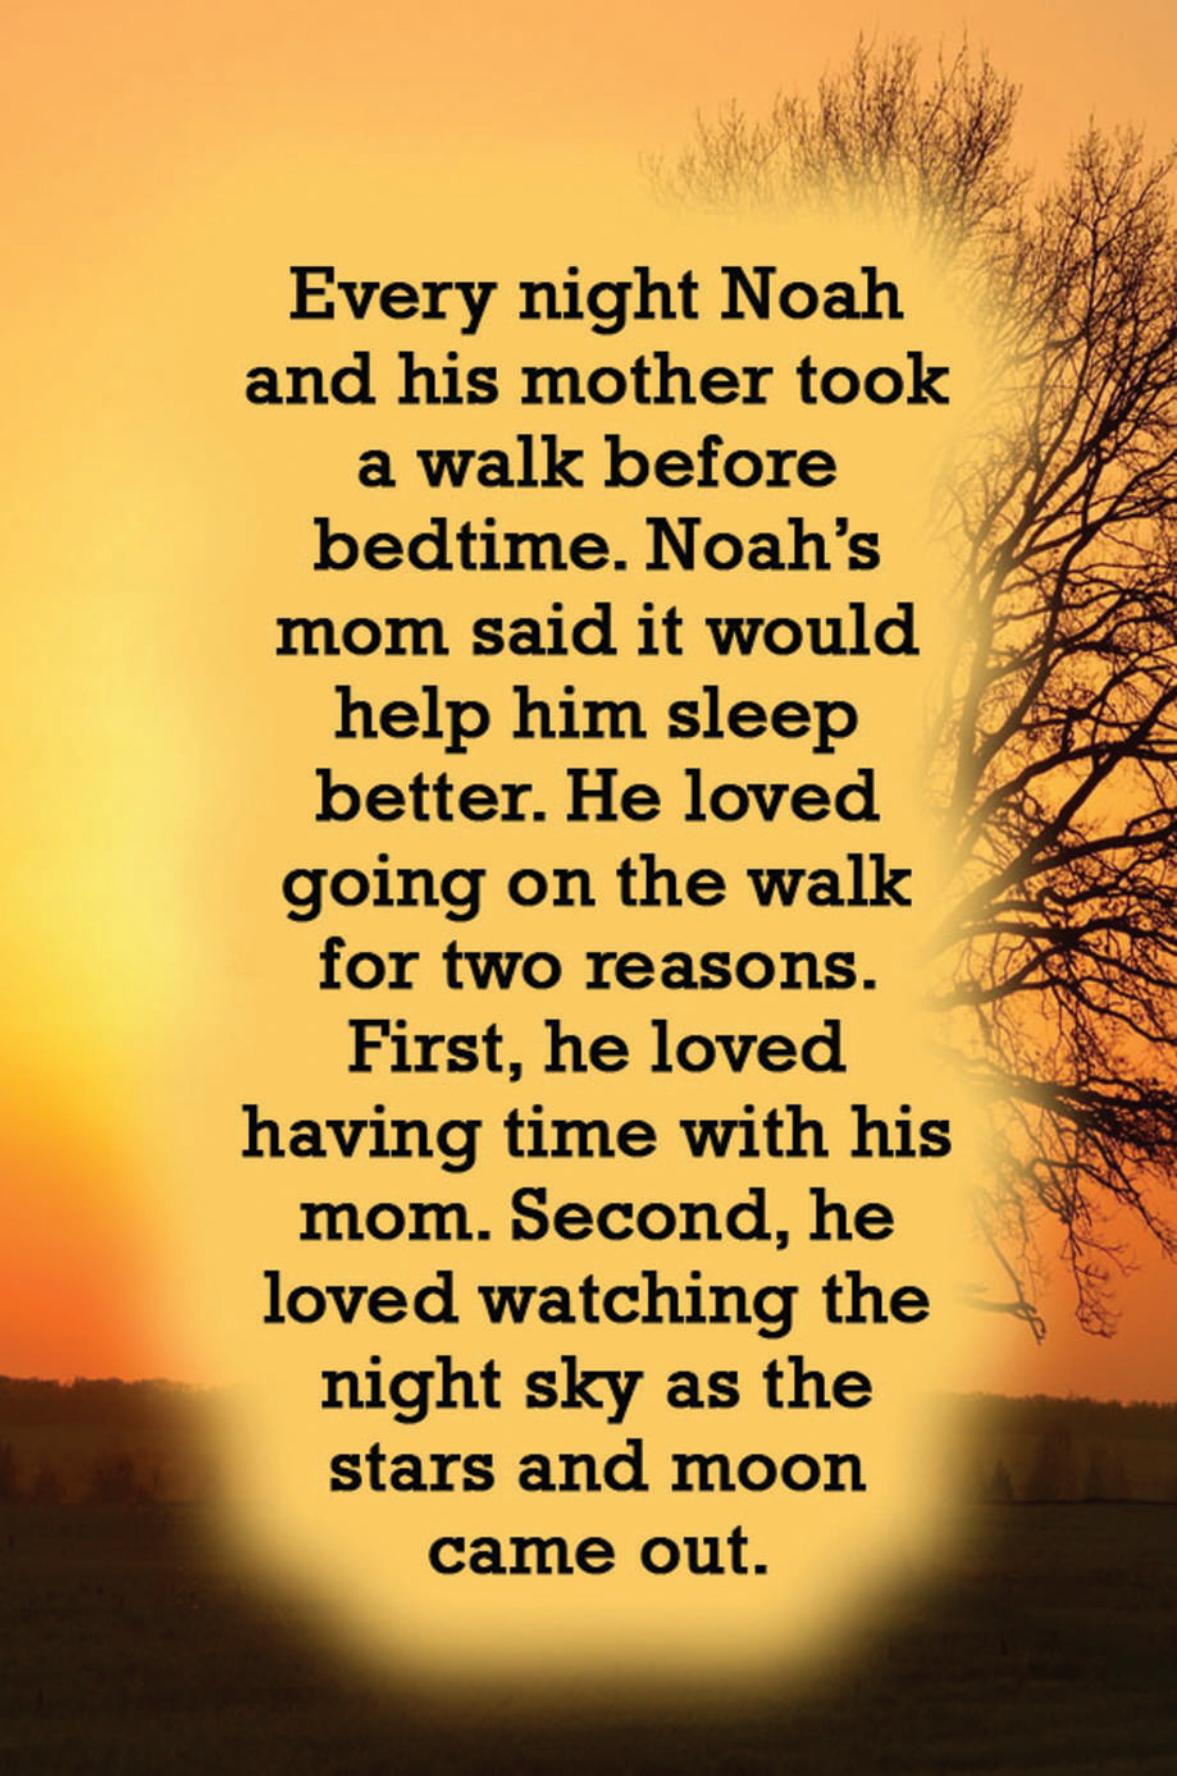

The background of the image features a large, leafless tree on the right side, its dark silhouette contrasting with the bright, orange and yellow hues of a sunset or sunrise. The sky is filled with soft, glowing clouds, and the horizon shows a dark silhouette of a landscape.

**“Noah,” his mother
called. “Are you
ready to go for our
walk?”**

**Noah jumped up
from his spot by the
window. “Yes! Yes!
Let’s go,” exclaimed
Noah!**

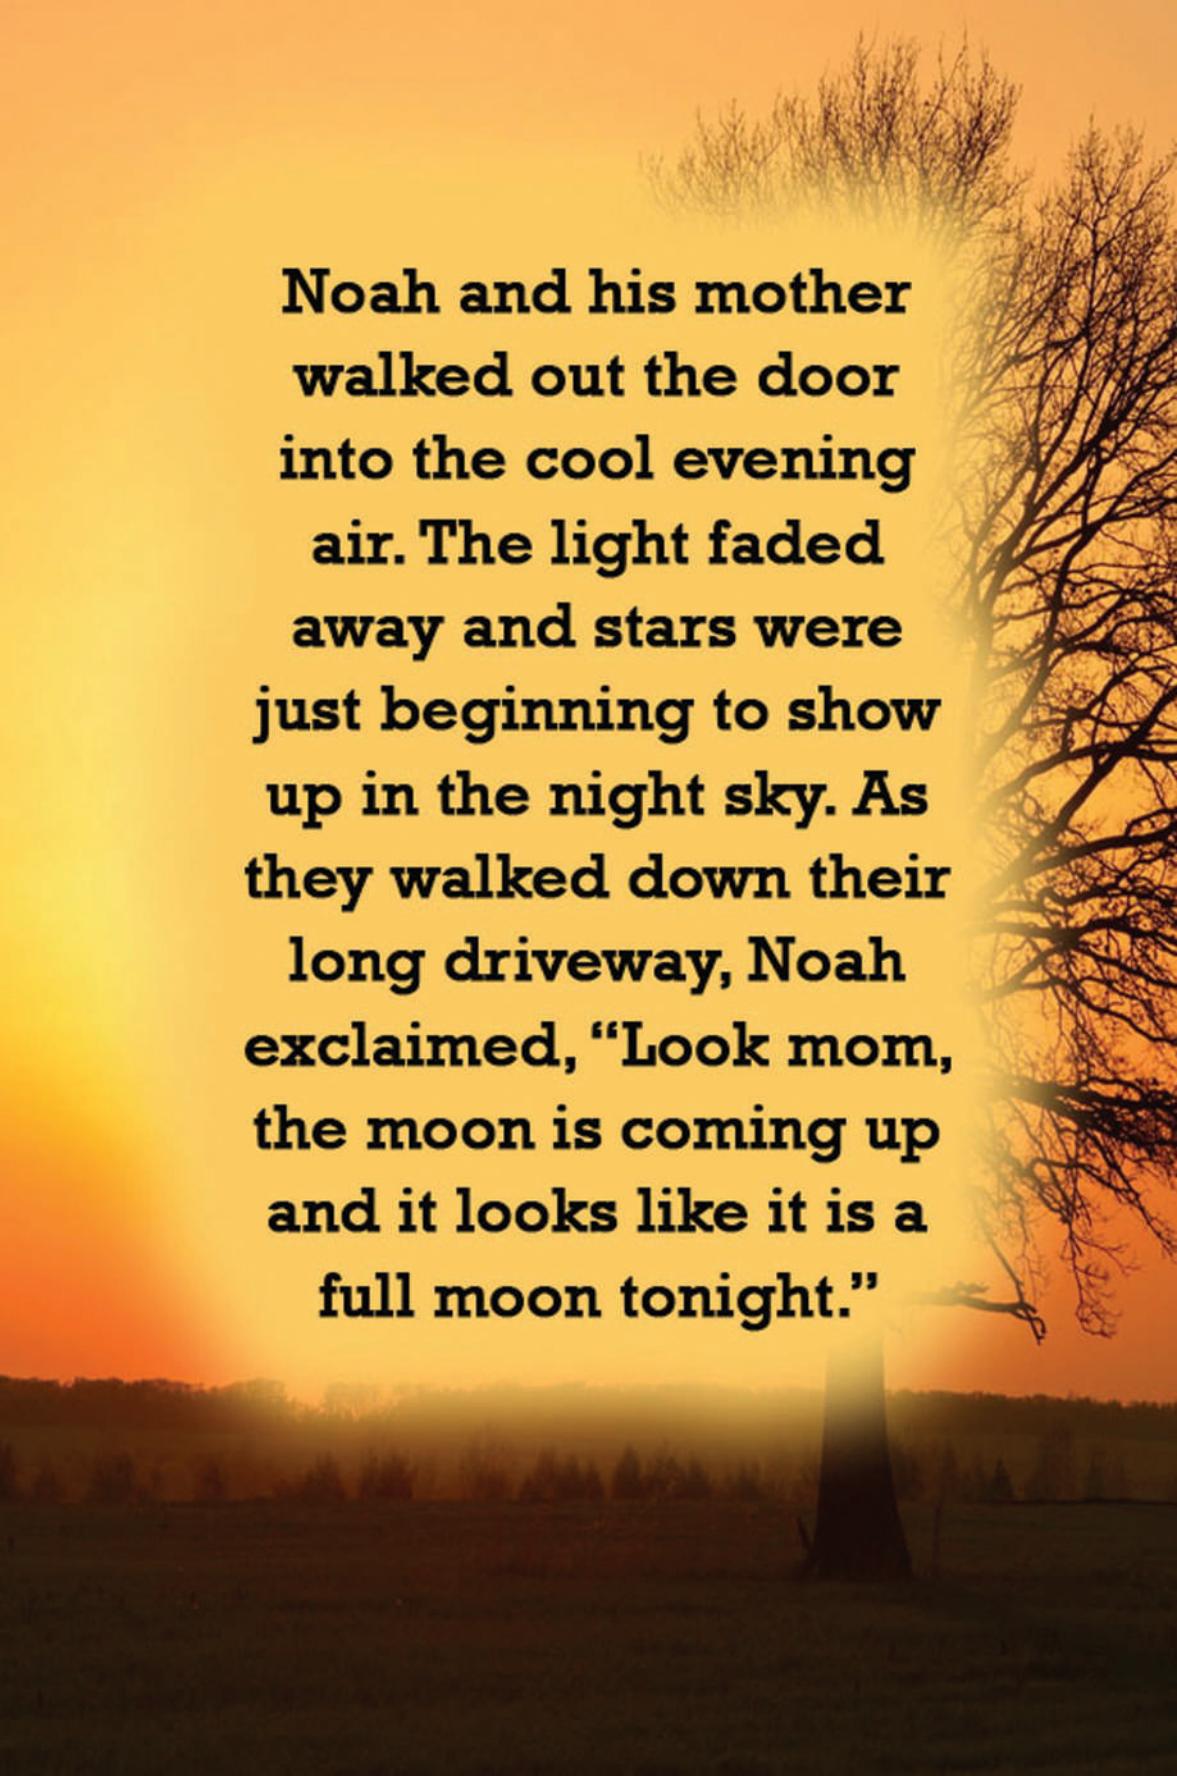

**Every night Noah
and his mother took
a walk before
bedtime. Noah's
mom said it would
help him sleep
better. He loved
going on the walk
for two reasons.**

**First, he loved
having time with his
mom. Second, he
loved watching the
night sky as the
stars and moon
came out.**

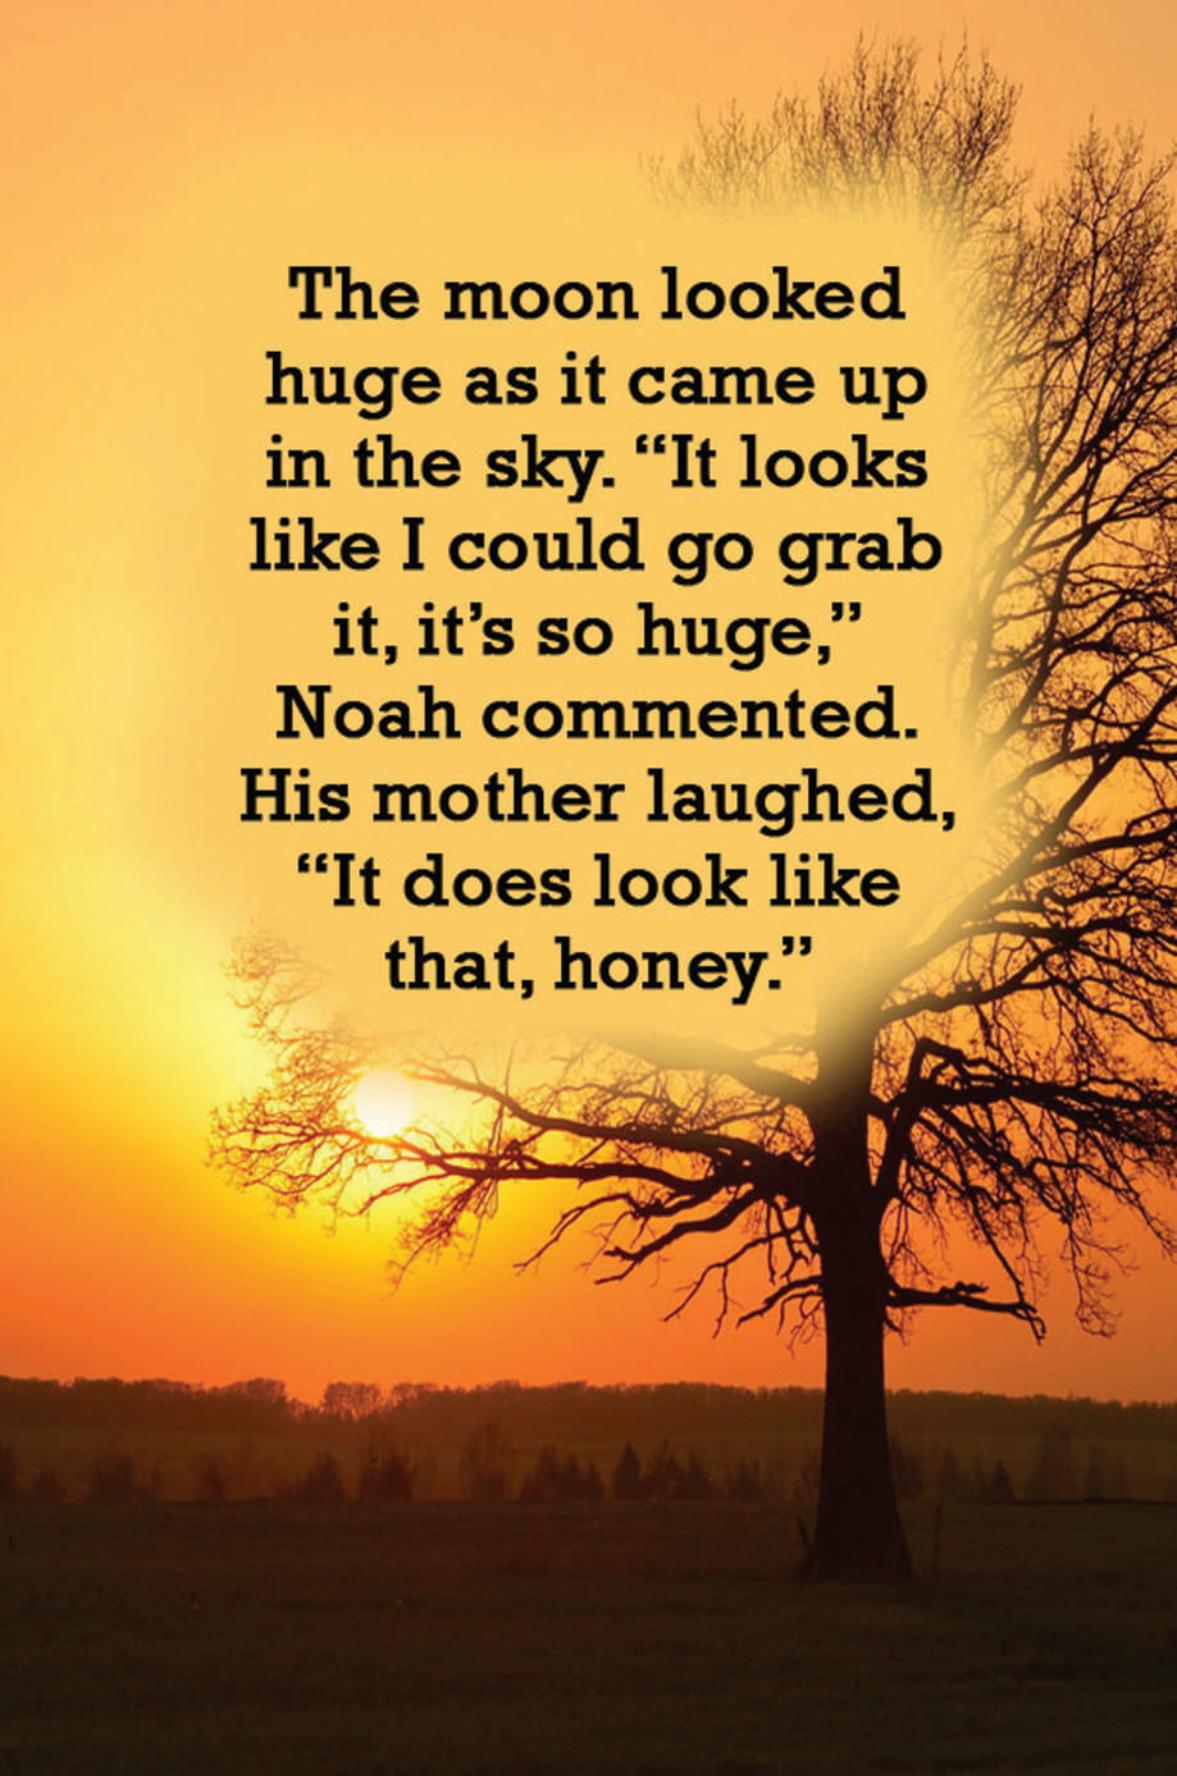

A photograph of a landscape at sunset. The sky is a warm orange and yellow, transitioning to a darker blue at the top. A dark silhouette of a bare tree stands on the right side of the frame, its branches reaching out. In the background, there are dark silhouettes of hills or mountains. The overall atmosphere is peaceful and slightly melancholic.

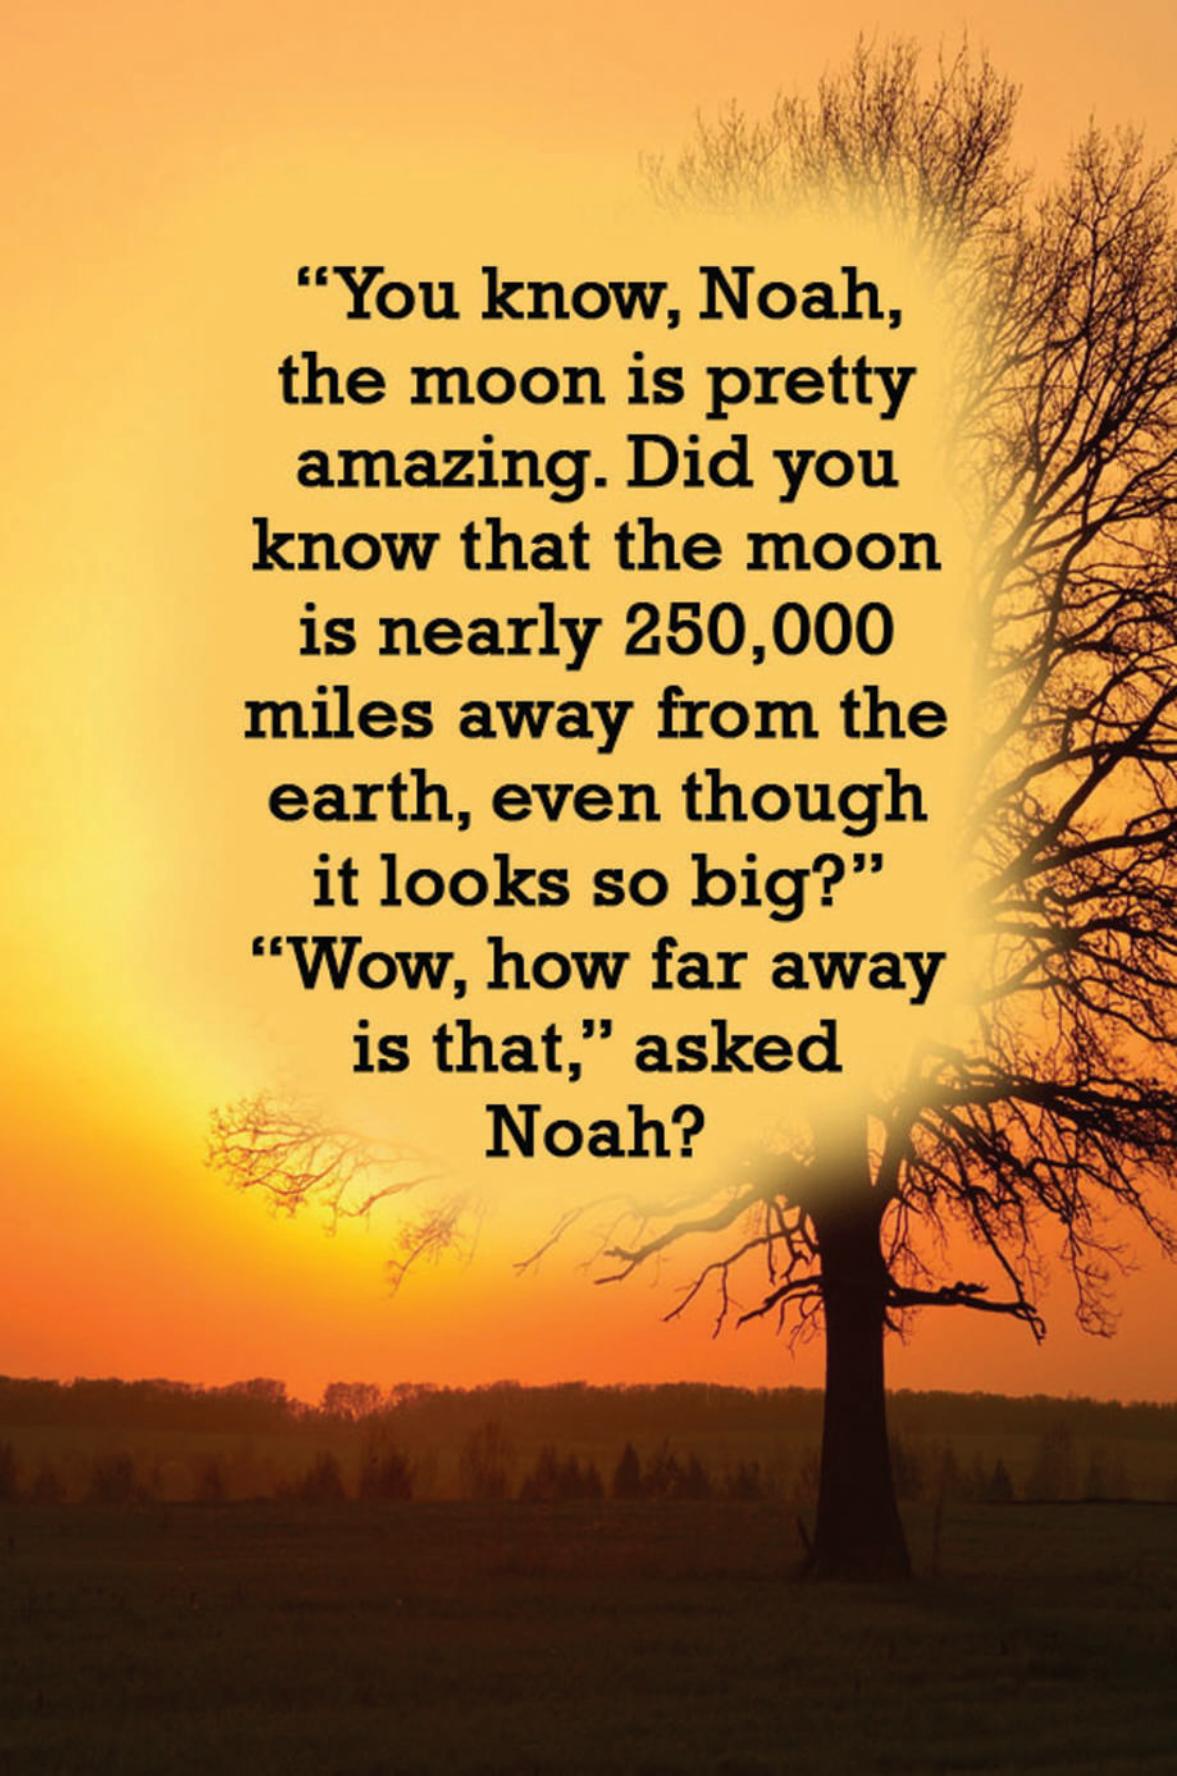

Noah and his mother walked out the door into the cool evening air. The light faded away and stars were just beginning to show up in the night sky. As they walked down their long driveway, Noah exclaimed, "Look mom, the moon is coming up and it looks like it is a full moon tonight."

**The moon looked
huge as it came up
in the sky. "It looks
like I could go grab
it, it's so huge,"
Noah commented.
His mother laughed,
"It does look like
that, honey."**

**“You know, Noah,
the moon is pretty
amazing. Did you
know that the moon
is nearly 250,000
miles away from the
earth, even though
it looks so big?”**

**“Wow, how far away
is that,” asked
Noah?**

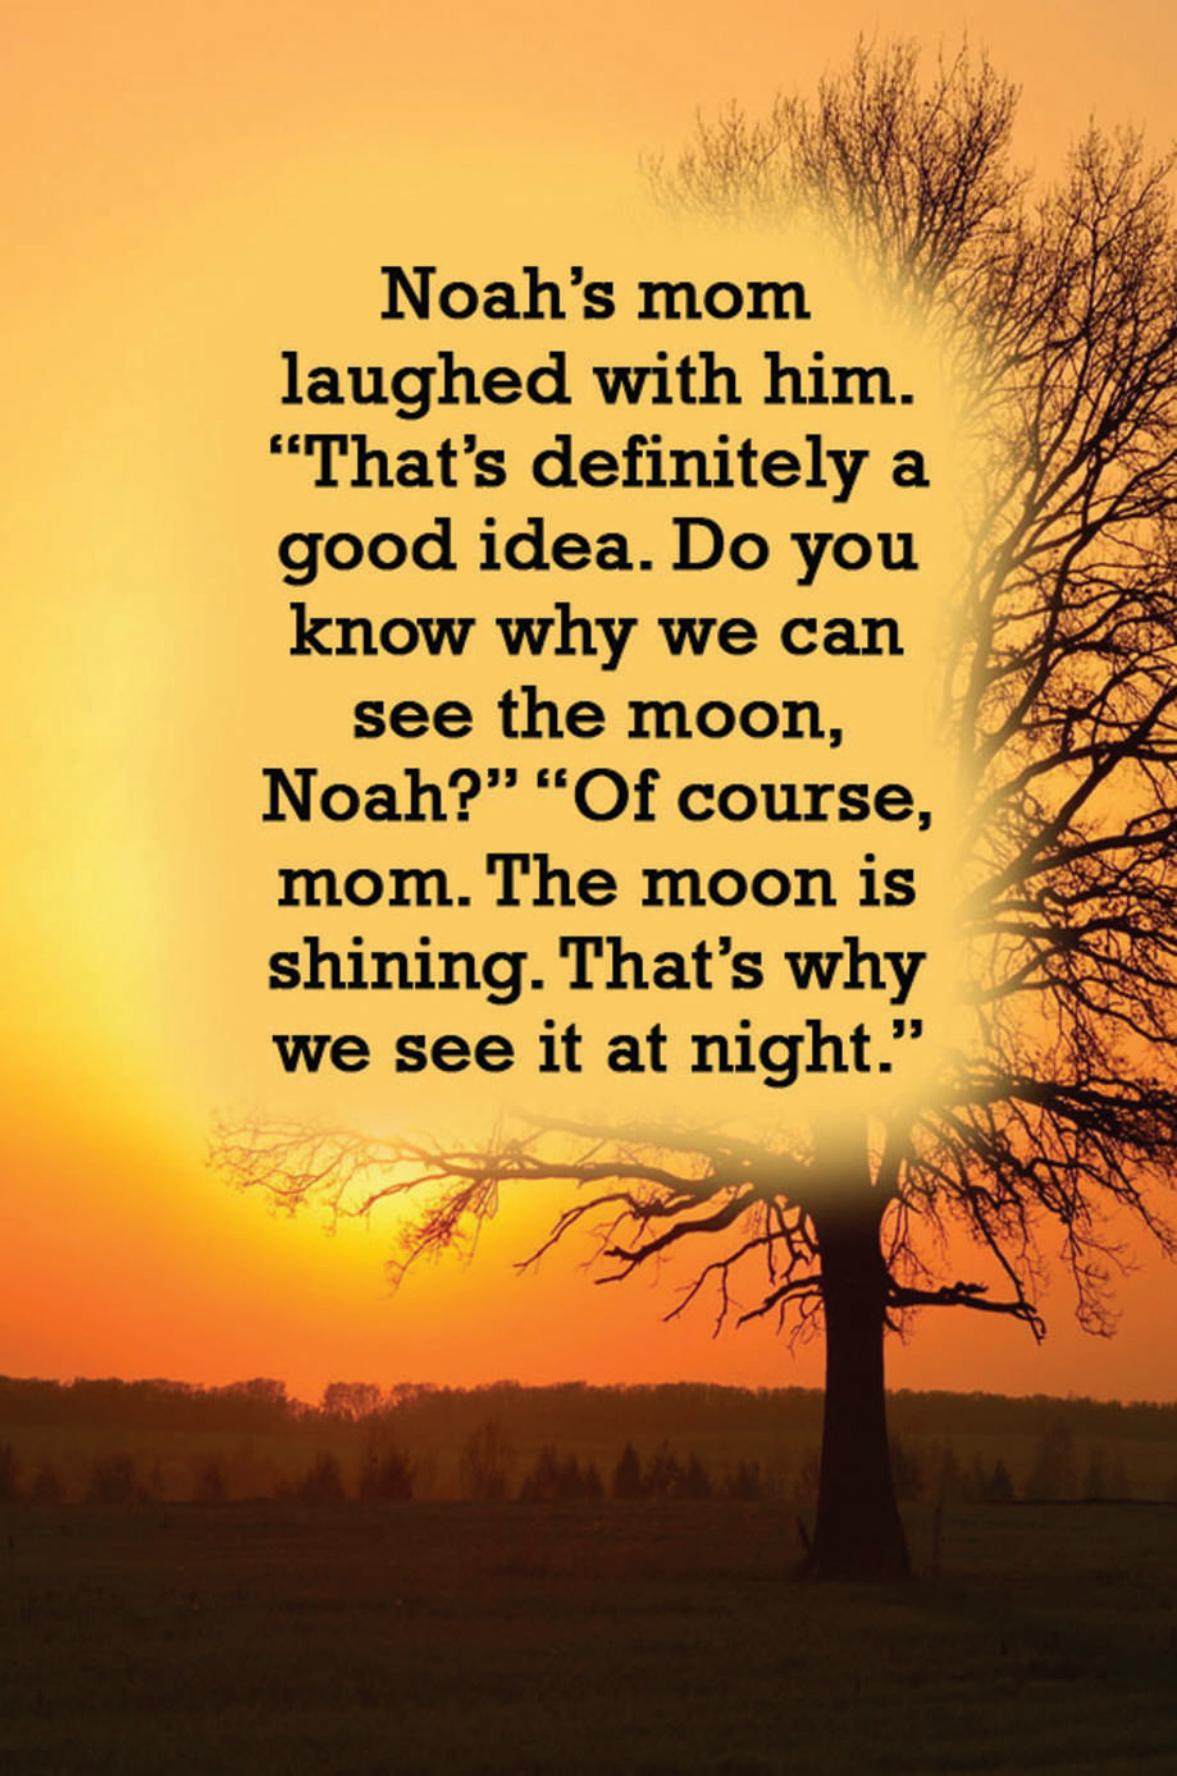

**“Well, if we jumped
in our car and
started driving, it
would take about
130 days to get to
the moon. That is
more than three
months of non-stop
driving.” “That is a
long way to go.
Maybe we better
buy a rocket,”
laughed Noah.**

130

Noah's mom
laughed with him.
"That's definitely a
good idea. Do you
know why we can
see the moon,
Noah?" "Of course,
mom. The moon is
shining. That's why
we see it at night."

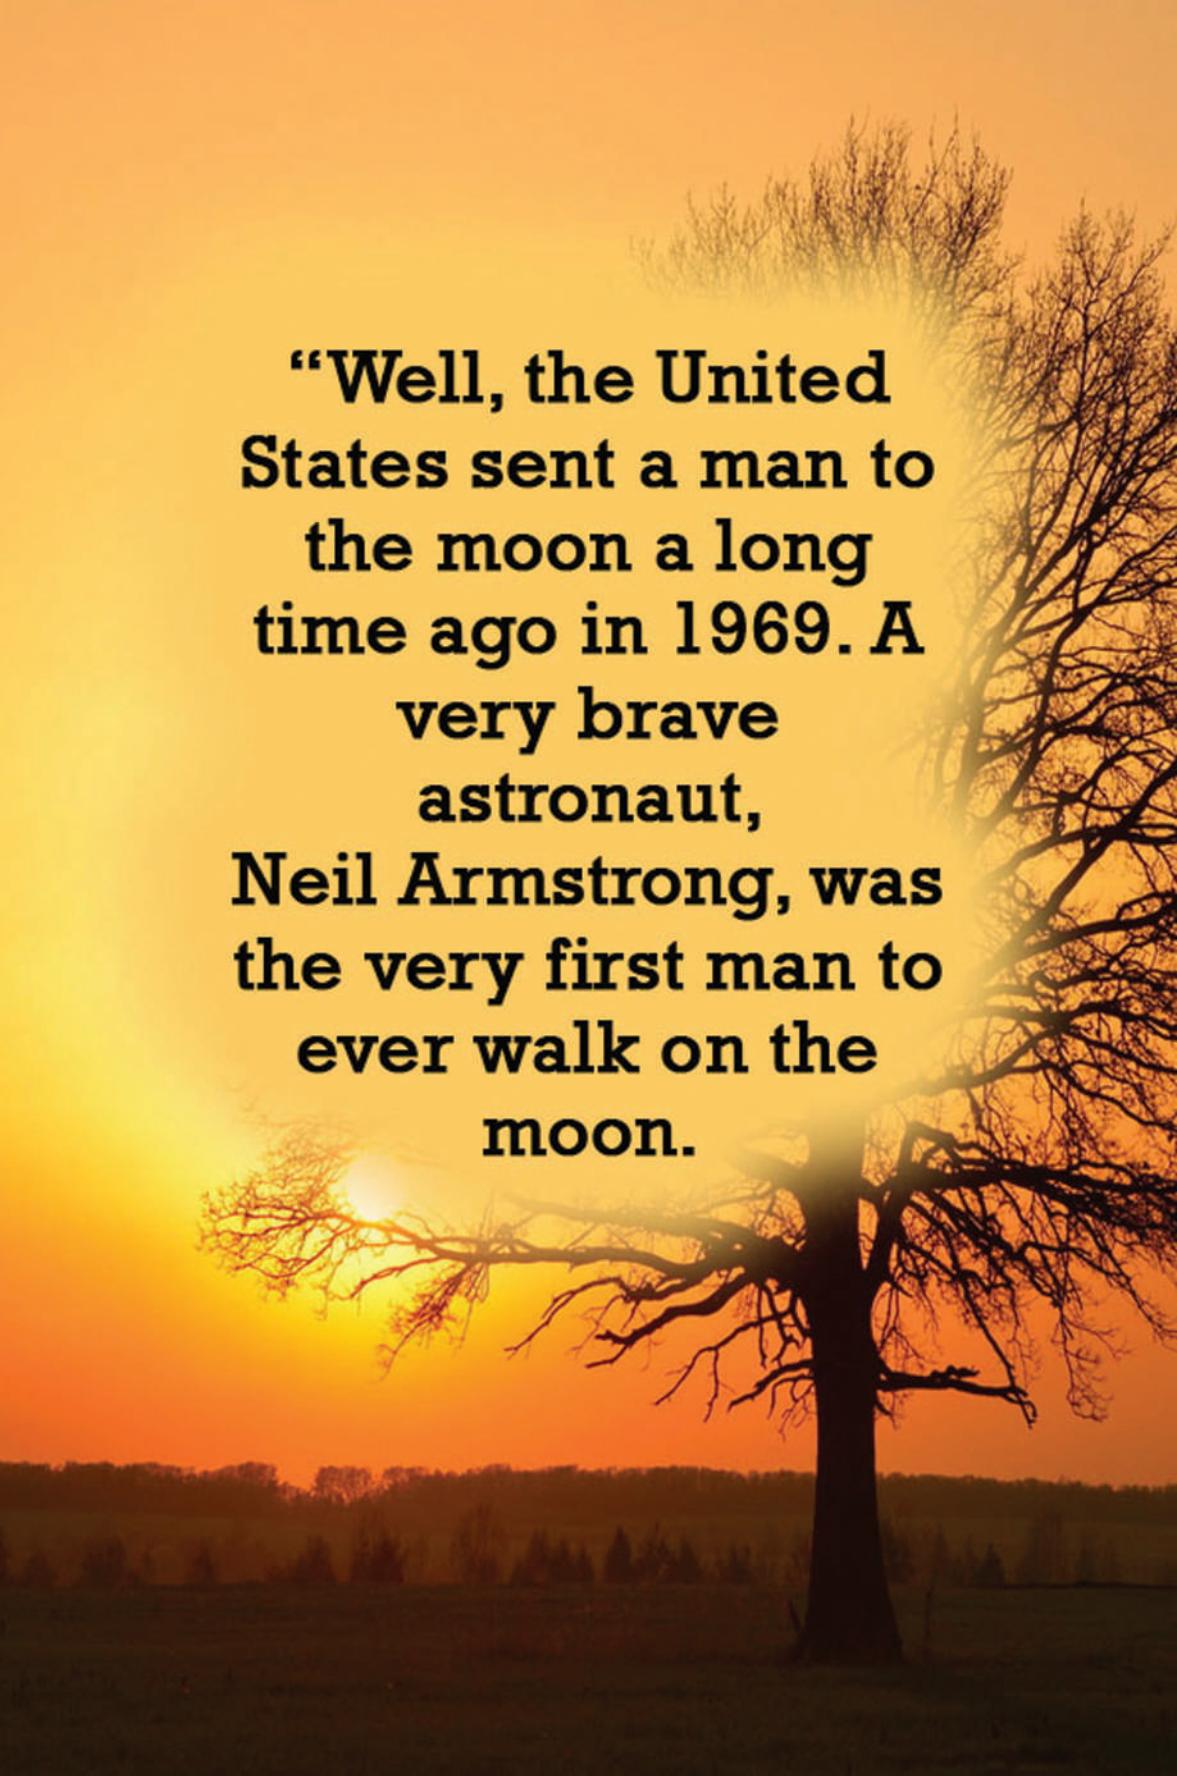

“That’s a good guess, but the moon actually doesn’t have any light of its own. The reason it looks like the moon is shining is because the moon reflects the light from the sun. Light from our sun bounces right off the moon and we see that light here on earth.”

**"I never knew that.
I always thought it
was the moon
making the light,"**
said Noah. "The sun
is really amazing. It
shines on us during
the day, and at
night, it gives us its
light via the moon,"
**his mom
commented. "What
else do you know
about the moon,"**
Noah asked?

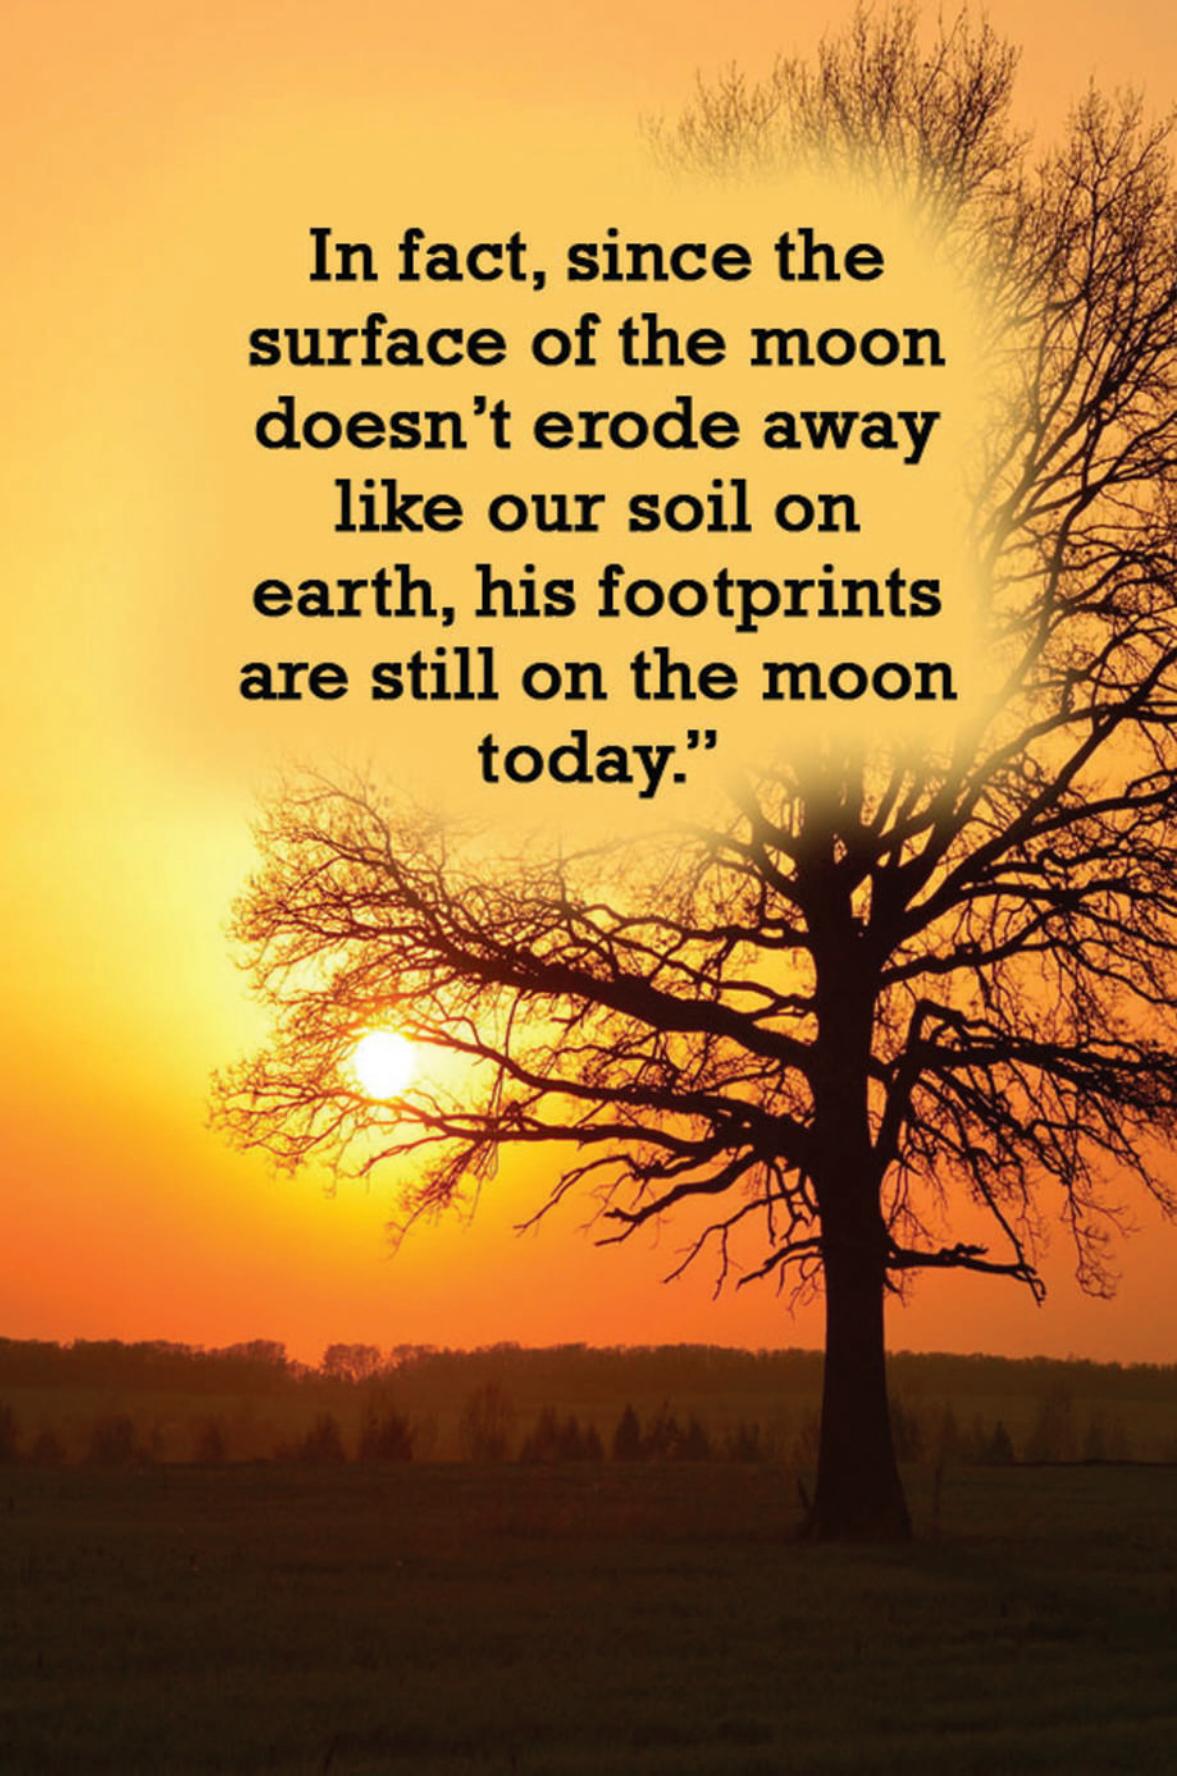

"Well, the United States sent a man to the moon a long time ago in 1969. A very brave astronaut, Neil Armstrong, was the very first man to ever walk on the moon.

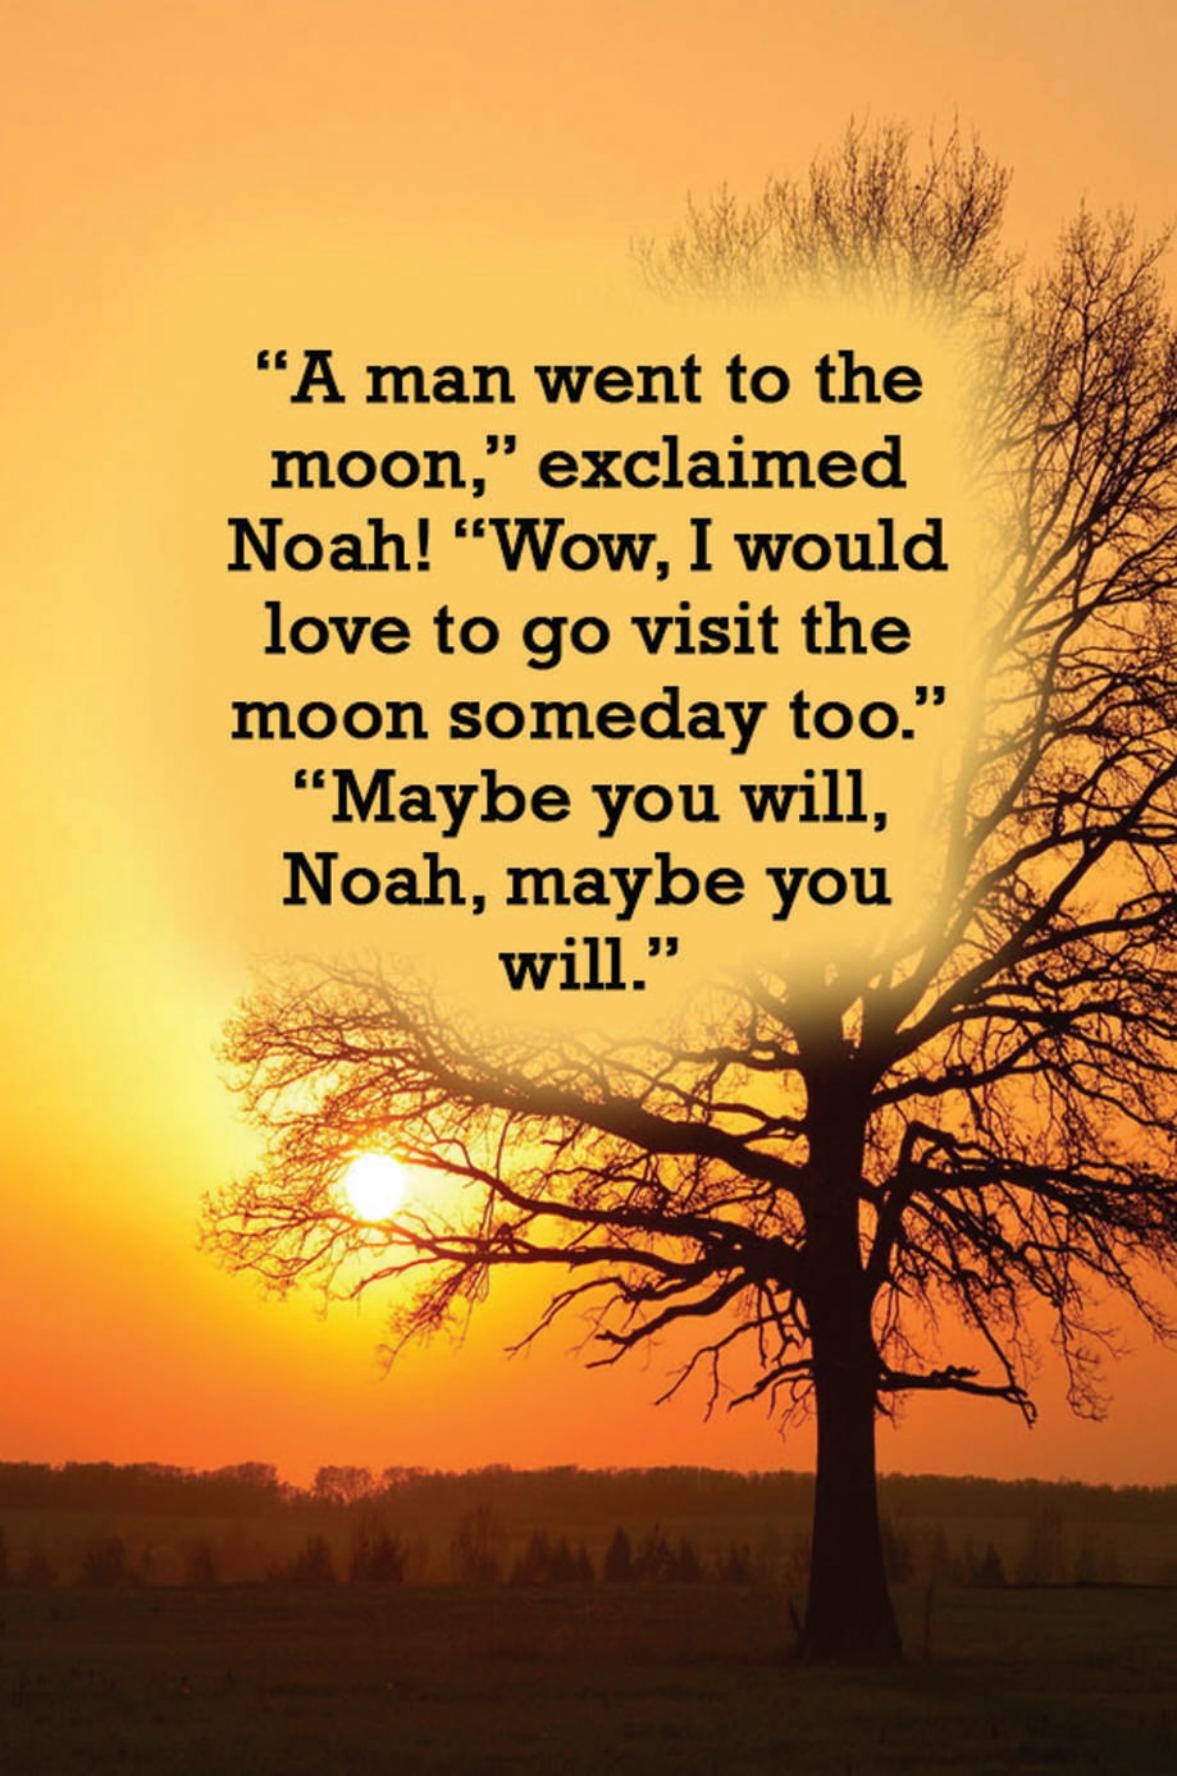

**In fact, since the
surface of the moon
doesn't erode away
like our soil on
earth, his footprints
are still on the moon
today."**

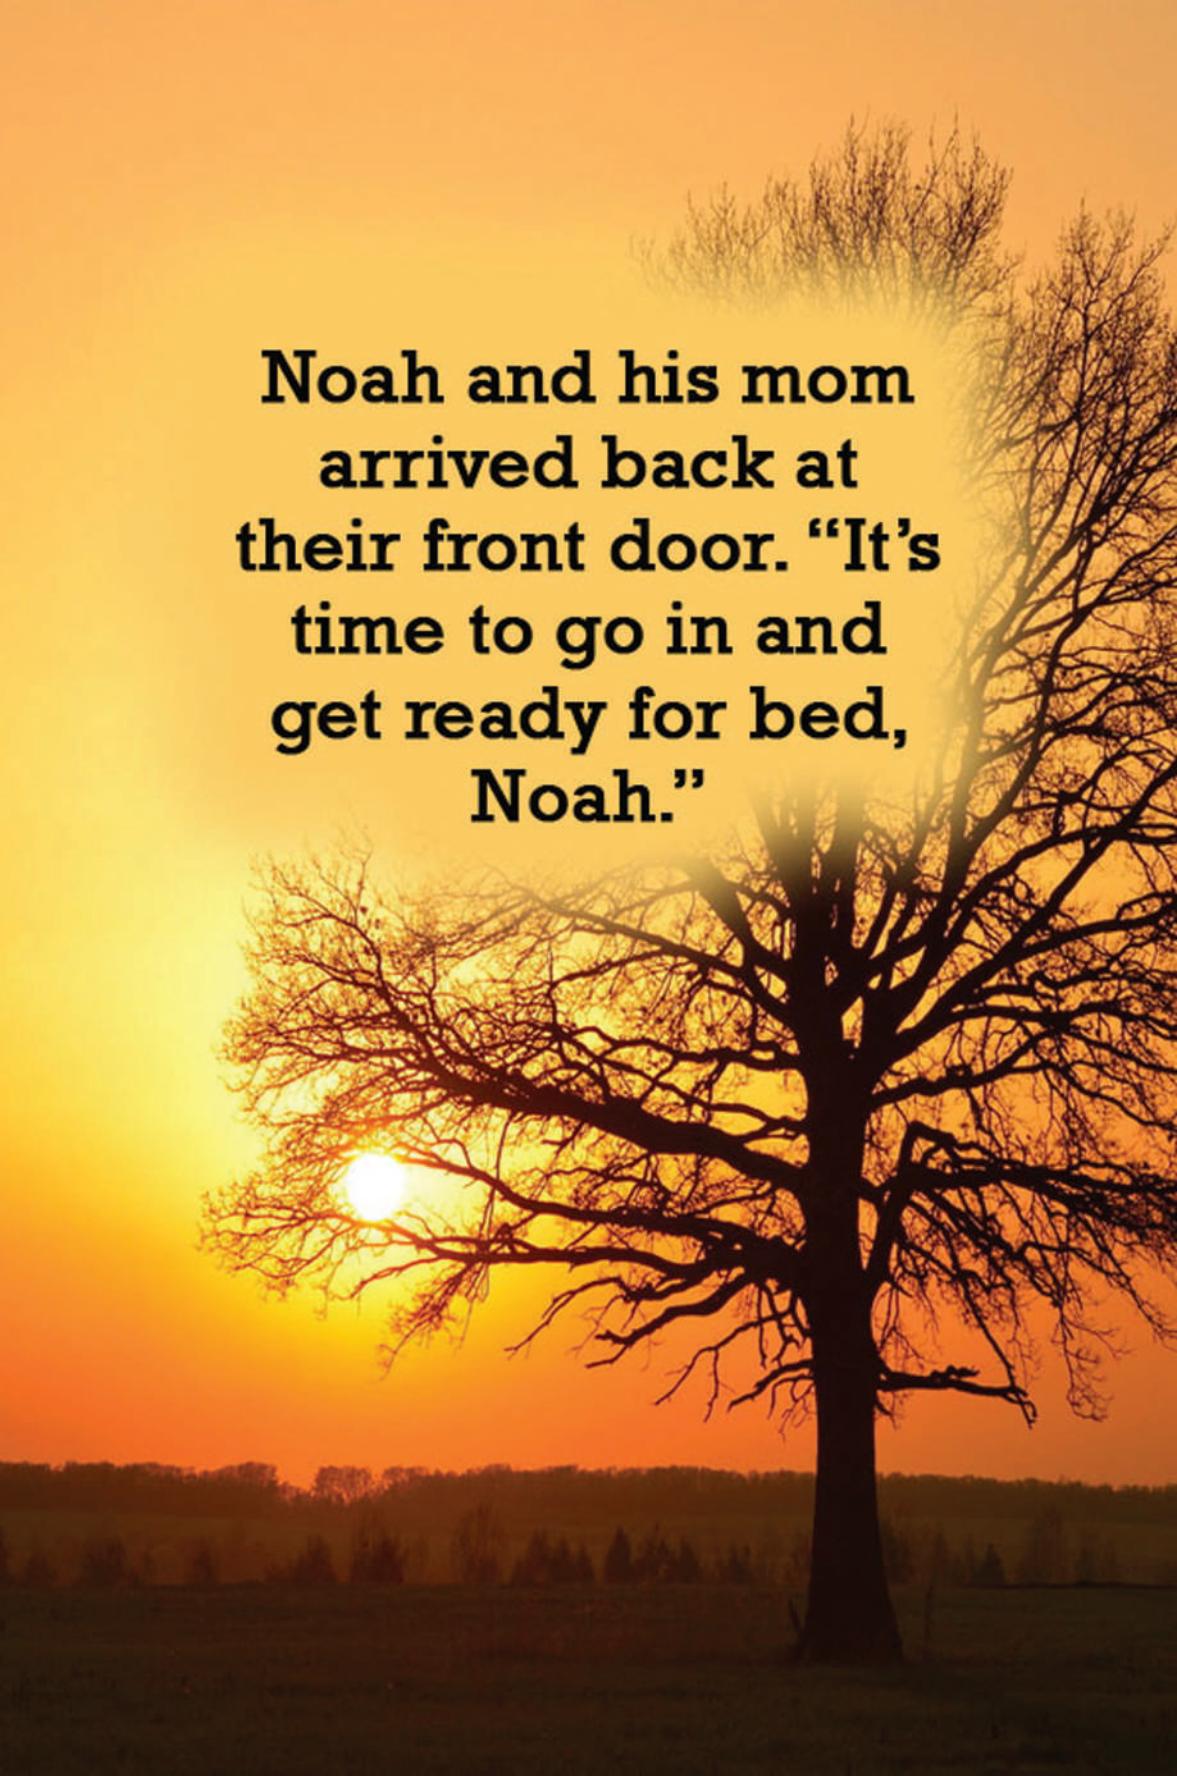

“A man went to the moon,” exclaimed Noah! “Wow, I would love to go visit the moon someday too.”

“Maybe you will, Noah, maybe you will.”

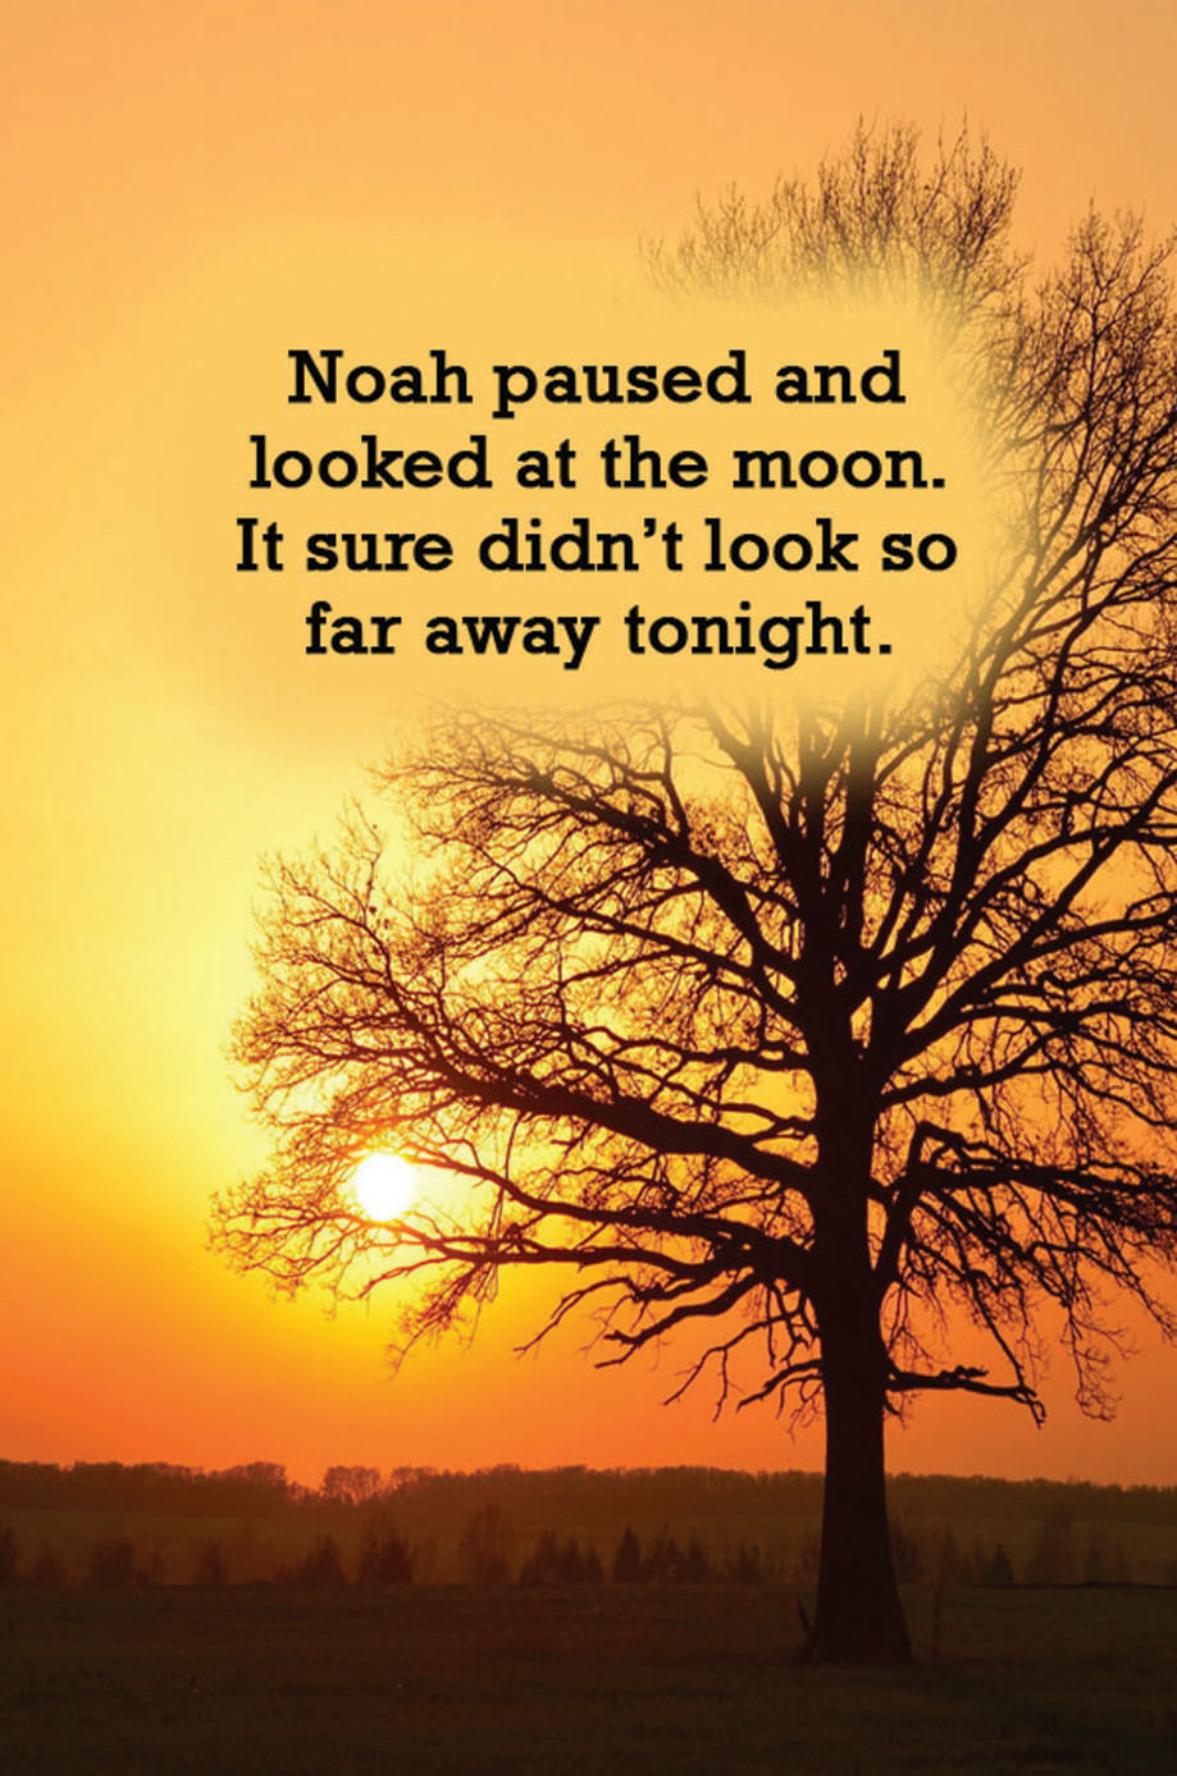

! ! !

**Noah and his mom
arrived back at
their front door. "It's
time to go in and
get ready for bed,
Noah."**

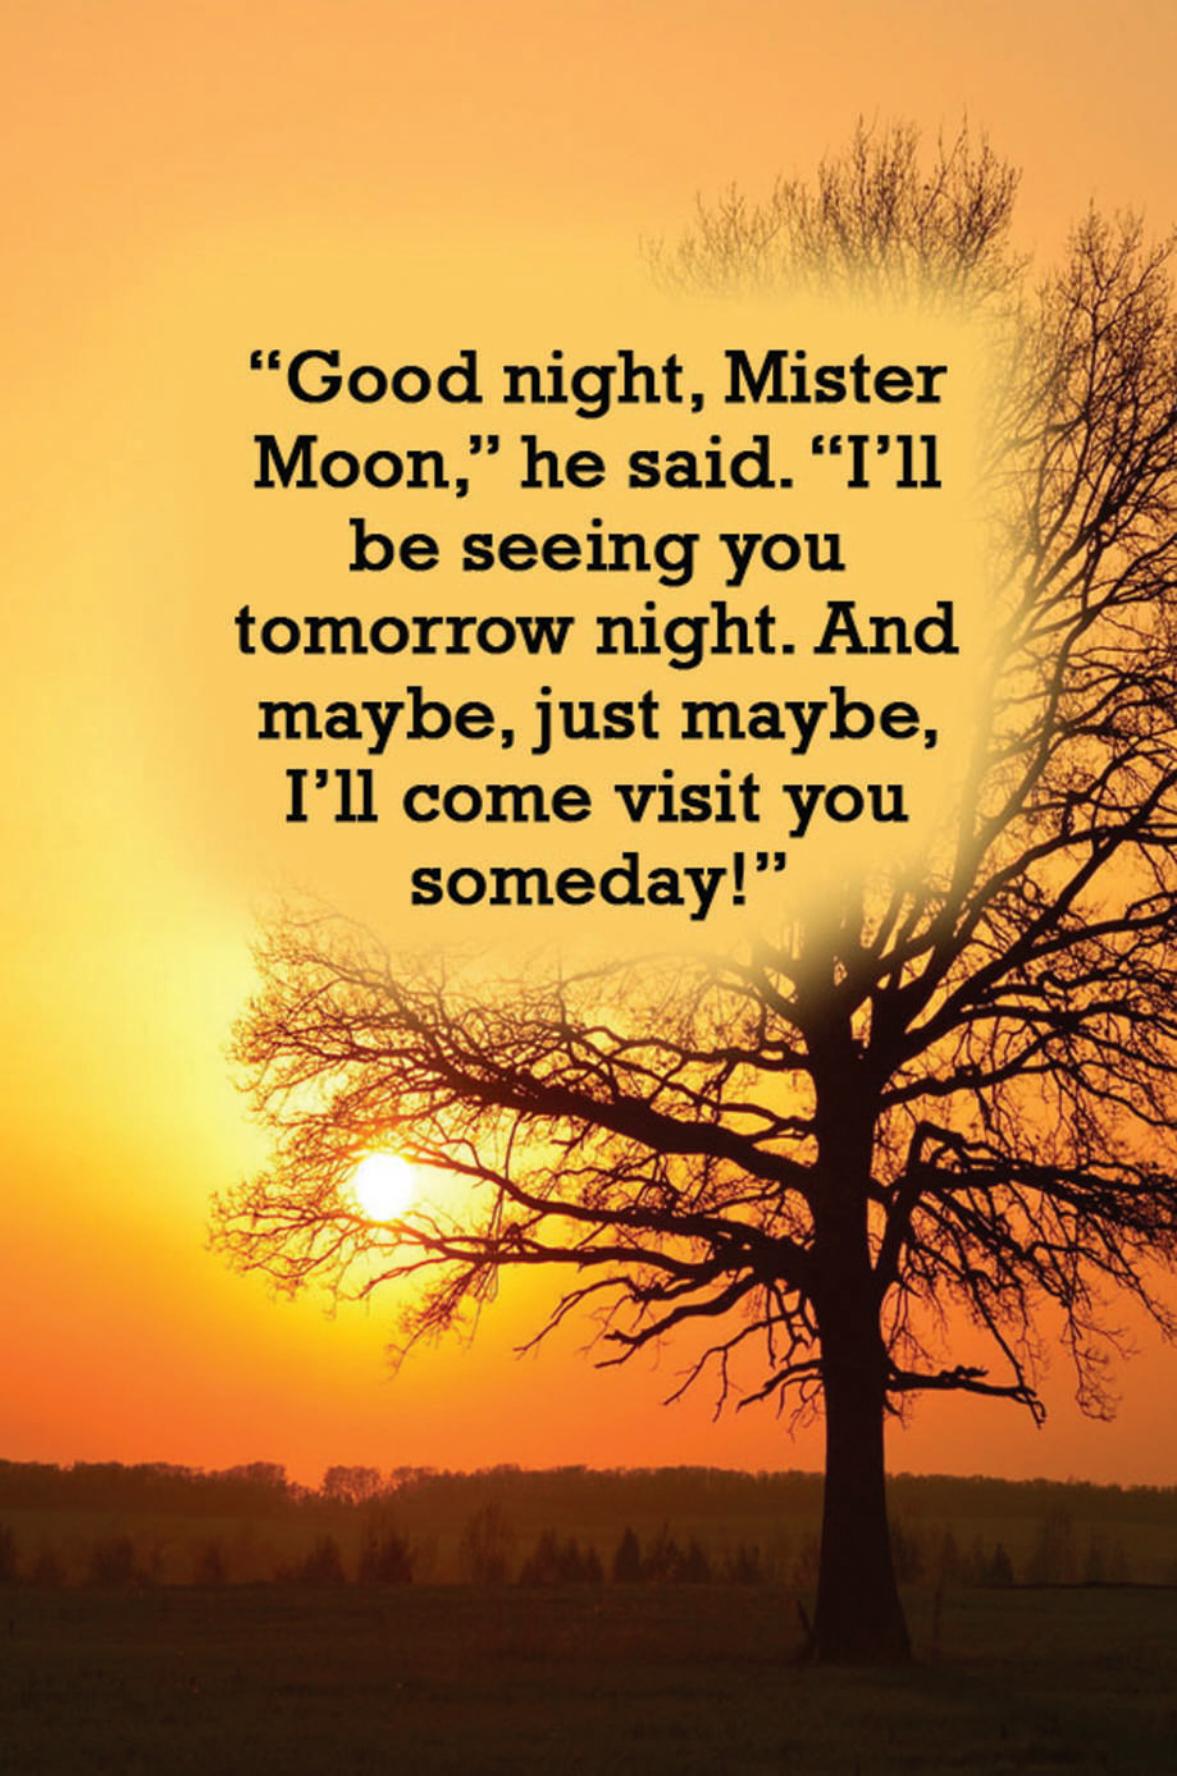

**Noah paused and
looked at the moon.
It sure didn't look so
far away tonight.**

**“Good night, Mister
Moon,” he said. “I’ll
be seeing you
tomorrow night. And
maybe, just maybe,
I’ll come visit you
someday!”**
